OBJECTIVE

MCA Student (2026) with a strong foundation in computer applications and a passion for software development and data visualization. Skilled in **Python development, Salesforce, MySQL, Power BI and Data visualization**. Open to internships and entry level opportunities in Software testing, Software Developer, Data Analyst and Business Intelligence Developer.

EDUCATION

- Master of Computer Applications (**MCA**) | **2024-26** | MIET, Meerut
Affiliated to Dr. A.P.J. Abdul Kalam Technical University (AKTU)
- Bachelors of Computer Applications (**BCA**) | **2021-24** | MIT, Meerut
Affiliated to Chaudhary Charan Singh University (CCSU)

SKILLS

- Programming: **Python**, C/C++, **MySQL**
- Web Development: HTML/CSS
- Tools: GitHub, VS Code and **Power BI**
- Cloud: AWS Educate (Basics of Generative AI, **Cloud Computing**)
- Core Competencies: Software Development, Data Analysis, Salesforce, Web Development
- Data Cleaning & Transformation
- Soft Skills: Problem Solving, Creativity, Teamwork & Collaboration

PROJECTS

Power BI Dashboard – Ola Data Analysis

- Developed an interactive Power BI dashboard to analyse ride data, including booking trends and revenue insights.
- Delivered actionable insights on ride frequency, cancellations, and driver ratings for decision-making scenarios.

CanteenEats - Front-end web application

- A front-end web application that simplifies canteen operations.
- Made using HTML, CSS, JavaScript.

Railway Management System

- Developed a Railway Management System to handle train information, passenger records, and bookings.
- The system supports CRUD operations, form validation, and role-based access.

Certifications

- Introduction to Cybersecurity (CISCO)
- Python Programming Essentials Bootcamp (LetsUpgrade)
- Introduction to Cloud Computing (Simplilearn)
- Beginning Python (Infosys Springboard)
- AWS Educate: Introduction to Generative AI
- 20+ Badges and 5000+ reward points in trailhead
